

STC Insured Deposit Program
Updated 12/16/2018

Welcome to the AIG Federal Savings Bank ("AIG FSB"), d/b/a SunAmerica Trust Company ("STC") STC Insured Deposit Program (the "Program"). Under the Program, available cash balances (from security transactions, dividend and interest payments and other activities) in your STC Individual Retirement Account ("IRA") will automatically be deposited into interest-bearing Federal Deposit Insurance Corporation ("FDIC") insured deposit accounts ("Deposit Accounts") at one or more of the banks set forth below (the "Program Banks").

Funds in the Deposit Accounts at each Program Bank are eligible for deposit insurance by the FDIC, up to a total of \$250,000 in principal and interest per depositor in most insurable capacities when aggregated with all other deposits held in the same insurable capacity at a Bank. Pershing, LLC will deposit the available cash in your IRA in a Deposit Account at one or more of the Program Banks listed below, up to \$246,500. Your funds will be eligible for up to \$2,500,000 of total FDIC insurance coverage, subject to applicable limitations. Once \$246,500 has been deposited in each of the Program Banks, any additional funds will be deposited in an "Excess Bank" without limit and without regard to maximum available FDIC insurance coverage.

For its services under the Program, SagePoint Financial, Inc. ("SagePoint") receives a per IRA fee each month. SagePoint's fee is not based on the amount of assets in the Program or your IRA. SagePoint's compensation under the Program does not depend on or vary with, and is not affected by, the actual amounts held in the Deposit Accounts of your IRA. As provided for below, the Program sweep fee will be indexed to the current Federal Funds Target ("FFT") Rate. Increases in the FFT Rate will result in increased compensation for SagePoint. STC can change the applicable fee schedule upon 30 days advance notice to you. Although it is generally anticipated that Royal Alliance's fees under the Program will be offset by the amounts paid by the Program Banks, STC reserves the right to withdraw or debit the monthly fee, or a portion thereof, from your IRA in the event or to the extent that the amount received from the Program Banks and paid over to SagePoint by the administrator for the period is less than the applicable fee for the same period.

SagePoint will be paid a maximum monthly per IRA fee of \$22 for its services in connection with the Program. In a lower rate environment, SagePoint's fee will be reduced based on the FFT Rate, which increases the likelihood of Program customers receiving a positive interest rate. The fees paid to SagePoint may be reduced to as low as \$1 per IRA per month. The monthly fee increases and decreases by \$0.08 with every 1 basis point (a basis point is equivalent to 0.01%) change in the FFT. The formula that will be used to calculate SagePoint's fee is **\$1 + (\$0.08 x FFT)**, with a **maximum monthly per IRA fee of \$22**. FFT rate is the rate or the range of rates as expressed in percentages most recently announced by the Federal Open Market Committee of the Federal Reserve System that is the Committee's target for the rate charged by banks on unsecured loans of the banks' reserve balances at Federal Reserve Banks. In cases where the FFT rate is a range of rates, the FFT rate will be deemed to be the midpoint of the range rounded to the nearest hundredth of a percent. Examples of how the fee is calculated using the above formula:

Example #1

Federal Funds Target range = 75-100 basis points
Midpoint of range is 87.5 basis points, round up to nearest whole number = 88 basis points
Monthly per IRA fee = \$1.00 + (\$0.08 x 88) = **\$8.04**

Example #2

Federal Funds Target range = 250-275 basis points
Midpoint of range is 262.5 basis points, round up to nearest whole number = 263 basis points
Monthly per IRA fee = \$1.00 + (\$0.08 x 263) = \$22.04
Since \$22.04 is greater than the stated maximum monthly fee of \$22; the actual fee would be **\$22**

SagePoint's monthly fee will not generally be seen on your IRA statement due to the manner in which the fee is recouped from the Program Banks, as discussed above. SagePoint may waive any portion of its fees, or its fee entirely.

Your Financial Advisor will not receive any portion of the fees paid by the Program Banks. The amount of fees received by Pershing, SagePoint, and any other service provider, will affect the interest rate paid on your Deposit Account(s). Upon request, SagePoint will provide you with information concerning the fees it receives in connection with the STC Insured Deposit Program.
